With a culture where pornography is available on our hand held devices, we have an epidemic of pornography addiction. It is not a matter *if* porn comes across your path, but *when*.

You are not alone.

We want to introduce you to Wayne and Catherine Hendrickson, and a ministry that talks about an intensely private subject. Pornography and sexual brokenness.

We offer:

- *Couples Counseling - dealing with pornography, infidelity, sexual anorexia*
- *Individual counseling - directed at compulsive sexual behavior*
- *Spouse/Partner Counseling & Spouse/Partner Groups*
- *Teen and Family Counseling*

Credentials: Wayne Hendrickson

M.Div. Bethel Seminary, St. Paul MN (Pastoral Counseling Emphasis)

CPE: Baptist Hospital, St Paul MN (Clinical Pastoral Education)

SRT: American Association for Sex Addiction Therapy (Sexual Recovery Therapist / Intimacy Anorexia, and Partner's Recovery)

Mens Recovery Group:

Our mens group that meets weekly supports men with tangible tools to meet their sexual integrity goals. Healing comes from willingness to break the secret and isolation, and meet with others that struggle.

Wayne's Story of Pornography Addiction Recovery:

Wayne started recovery for his pornography addiction in 2000. After 20 years in full time Christian ministry, his secret was discovered and his life changed. Since then he has been in recovery and with education and training has helped many people who suffer from the impact of this secret affliction. Thus the emphasis on sexual addiction and pornography. We have to begin to talk about it, and remove the intense shame that accompanies the problem.

You can be redeemed, and have a healthy, faithful, intimate relationship.

Minister Friendly:

◆◆◆◆◆
"From my own experience I know that many in full time ministry struggle silently with this issue. We are available to come to your church and talk about this issue in any forum you feel appropriate."
◆◆◆◆◆

Materials we use:

We use a therapy model developed by Dr. Douglas Weiss, as well as others in the field, to help men and women to understand the problem and gain education, insight and victory. For more information see <https://aasat.org>
